Siyu Zou（邹思宇）

Lecturer, Ph.D.
School of Chemical Engineering, Xiangtan University, China
siyu.zou@xtu.edu.cn & zousiyu1995@outlook.com
https://zousiyu1995.github.io/zousiyu/
Born in Songzi（松滋), Hubei, China

Research Interests

My main research interests lie in mathematical modeling and numerical simulation of transport phenomena (fluid dynamics, mass and heat transfer, and reaction kinetics) in nature and industry. I leverage chemical engineering principles to develop multi-physics models to understand, design, and optimize these processes. Some examples of application,

- Modeling and design of biosensor, e.g, enzyme electrodes.
- Modeling and optimization of chemical reactors, e.g, fixed bed reactors, CVD reactors.
- Understanding biological systems from chemical engineering perspective, e.g, eyelashes, digestive system, cardiovascular system.

Employment

Since 09/2024 **Lecturer**
School of Chemical Engineering, Xiangtan University, Xiangtan, Hunan Province, China

07/2021 – 06/2024 **Post-Doc in Physical Chemistry**
College of Chemistry, Chemical Engineering and Materials Science, Soochow University, Suzhou, Jiangsu Province, China
Co-Advisors: Prof. Xinjian Feng and Prof. Jie Xiao
Project: “Mathematical Modeling of Three-Phase Interface Enzyme Electrode”

Education

09/2016 – 06/2021 **Ph.D. in Applied Chemistry**
School of Chemical and Environmental Engineering, Soochow University, Suzhou, Jiangsu Province, China
Advisors: Prof. Xiao Dong Chen and Prof. Jie Xiao
Dissertation: "Modeling and Simulation of Reactors with Unique Structures" (Defense 02/06/2021)

09/2016 – 09/2018 **M.Eng. in Chemical Engineering**
School of Chemical and Environmental Engineering, Soochow University, Suzhou, Jiangsu Province, China
Advisor: Prof. Jie Xiao
Successive postgraduate and doctoral programs of study. Transferred to Ph.D. in Applied Chemistry

09/2012 – 06/2016 **B.Eng. in Chemical Engineering**
School of Chemical Engineering and Pharmacy, Jingchu University of Technology, Jingmen, Hubei Province, China

Skills

Expertise Chemical Engineering, Transport Phenomena, Fluid Mechanics, Mass Transfer, Heat Transfer, Reaction Engineering, Reacting Flows, Porous Media, Incompressible Flows, Chemical Process Intensification, Process Modeling and Simulation, Mathematical Modeling, Numerical Simulation

Modeling & Simulation Physics-Based Modeling, Continuum Modeling, Multi-Physics Modeling, Multi-Scale Modeling, Machine Learning, Deep Learning, Differential Equation, Finite Element Method (FEM), Computational Fluid Dynamics (CFD), Turbulence Modeling, Moving Mesh

Software ANSYS Fluent, COMSOL Multiphysics, MATLAB, LaTeX, Pandas, Numpy, Matplotlib, Linux, Blender

Programming MATLAB, Python, C, Algorithms, Data Structures

Languages Chinese (native speaker), English (intermediate)

Honours and Awards

01/12/2024 **Best Oral Presentation Award**: In the 4th National Conference on Process Modeling and Simulation (hosted by South China University of Technology), my talk "Mathematical Modeling of Three-Phase Interface Enzyme Electrode" was honored with the Best Oral Presentation Award. This work has been published in AIChE Journal and Industrial & Engineering Chemistry Research.

07/2022 **Jiangsu Funding Program for Excellent Postdoctoral Talent**: This funding is provided by the Jiangsu provincial government.

16/07/2020 **Best Student Oral Presentation Award**: In the 2nd National Conference on Process Modeling and Simulation, my talk on eyelashes ("Inhibition of Ocular Water Evaporation by Eyelashes: Computer Simulation and Mechanism Analysis") was honored with the Best Student Oral Presentation Award (1 of 12 awardees out of 62 student talks). This work has been published in Journal of the Royal Society Interface. This conference was organized by the Simulation & Virtual Process Engineering Committee, one of the professional committees of the Chemical Industry and Engineering Society of China (CIESC).

Publications

- Google Scholar: 114 citations, 5 h-index, 4 i10-index.
- Research Gate: 100 citations, 5 h-index.
- Also find me on ORCiD, ScholarGPS, and Github.
- ∇ denotes the corresponding author.

Conference Presentations

29/11 – 01/12/2024	Contributed Talk, Mathematical Modeling of Three-Phase Interface Enzyme Electrode, The 4th National Conference on Process Modeling and Simulation, Guangzhou, China
16/07 – 17/07/2020	Contributed Talk, The Inhibitory Effect of Eyelashes on Water Evaporation on Ocular Surface: Computer Simulation and Mechanism Analysis, The 2nd National Conference on Process Modeling and Simulation, Online, China
25/08 – 27/08/2018	Poster, Multiscale Numerical Simulation of the Catalytic Ozonation Reactor for Wastewater Treatment, The 1st National Conference on Process Modeling and Simulation, Shanghai, China

Research Grants

01/2025 – 12/2030	**Mathematical Modeling of Three-Phase Interface Enzyme Electrode** Funded by Xiangtan University (KZ0809969) Budget: CNY 100,000 Role: Proposal, Project Manager

Research Project Participations

06/2020 – 05/2025 **High-Efficiency Enzyme Catalysis and Sensing System at Nanointerface**
Funded by Ministry of Science and Technology of the People's Republic of China (2019YFA0709200)
Budget: CNY 21,760,000
Role: Post-Doc, Researcher

01/2020 – 12/2023 **Basics of Particle Structure Control and Process Optimization of Uniform Particle Size Droplet Spray Drying Products at Multi-Scale Levels**
Funded by National Natural Science Foundation of China (21978184)
Budget: CNY 650,000
Role: PhD student, Researcher

Teaching

Fall 2024 **Virtual Simulation of Chemical Technology & HAZOP Safty Analysis**, undergraduate level, 2 credits, 34 students.
